Regarding Wireless LAN security

In order for you to access Internet quickly and conveniently, this service does not use security measure such as WEP key, which one usually needs to configure for client terminals when connecting to a wireless LAN router. For those who prefer secure connection, we recommend using VPN (Virtual Private Network) or the paid public hotspots services.

In addition, in the interest of protecting children, access may be restricted to certain websites deemed harmful to minors by this company.

●Requirements: 60 minutes / session, Unlimited number of sessions
